

# GREAT OPTIMISM NOW PREVAILS AT THE PEACE CONFERENCE IN PARIS

## BLIZZARD RAGES IN TEXAS FOLLOWING STORM WHICH KILLED SIXTY-SEVEN PERSONS

Dallas, Tex., April 10.—Nearly one hundred dead, several hundred injured, with property loss estimated at several millions of dollars was the toll taken in Wednesday morning's storms in northern Texas and Southern Oklahoma, according to information gathered early today.

The known death list totaled 97 at the last tabulation. Indications were this will be increased when crippled wire lines are restored to the small villages in North Texas where the heaviest loss of life occurred.

Dallas, Texas, April 10.—The worst equinoctial storm in many years swept over Northern Texas and Southern Oklahoma Tuesday night, leaving in its wake 67 deaths, hundreds of injured persons and property damage which will amount to many thousands of dollars, according to incomplete reports received here.

Fifteen persons were killed at Winnsboro, Texas, and 13 at Mineola. Many houses and buildings were unroofed in those towns.

A Missouri Kansas and Texas freight train was blown from the track near Dennison, Texas, and two trainmen were injured severely. Three persons lost their lives at Ector, Texas, when their houses collapsed.

The storm, which was central over Rio Grande Valley, moved northeastward with great severity during the night and was central over Oklahoma today.

Dispatches from Durant, Okla., state six persons were killed in that vicinity. Houses and barns were damaged.

A report from Dennison, Texas, said one entire family, Mr. and Mrs. Grover Attrip and two sons, was swept into the water of a swollen creek and drowned.

The storm, according to dispatches, covered a clearly defined area, approximately one mile wide, and apparently followed a path in which there were no large cities.

Western Kansas is in the grip of one of the worst spring blizzards in years. Rain, snow and sleet are being driven by a high north wind. Miles of telephone and telegraph wires are down. Reports from New Mexico state train service is tied up.

Rock Island Train No. 4, on the El Paso line, is reported stalled in a snow drift at Nara Vista, N. M. Four to six inches of snow are reported between Dodge City and La Junta.

The cause of the storm was erratic. At times it leaped a mile or more, skipping one farm house unharmed, only to demolish the next one.

## TEACHERS PENSION BILL IS PASSED

Columbus, April 10.—The house of representatives yesterday passed the Freeman bill to establish a system for retirement on pension of teachers in the public schools.

The bill appropriates \$10,000 from the state treasury to establish the fund for the first year. Thereafter it is to be supported by contributions from teachers, not exceeding \$1 a year from each teacher. After 36 years' service teachers may retire on a pension of not less than \$300 a year.

The bill by Representative Barnes, of Montgomery county, to authorize a small board of education for Dayton and other cities in Dayton's class passed the senate today and now goes to the governor.

The superintendent of public instruction, state auditor, attorney general and two members selected by the teachers will constitute the state board to administer the system.

## FESS ADVOCATES PRIVATE OWNERSHIP OF THE RAILROADS

Cleveland, April 10.—Congressman S. D. Fess of the 7th Ohio district, in an address here today, advocated the return of the railroads under strict government regulation, subsidizing of the merchant marine system to maintain American standards and that the government take a hand in the problems incident to the wholesale demobilization.

The congressman urged that the government take immediate measures to stamp out Bolshevism in this country and hoped that every one who preached against the government of the United States be deported. He was also emphatic in his opposition to the league of nations covenant as it stands.

## BOLSHEVIKI HAVE 600,000 TROOPS CONCENTRATED TO TAKE ARCHANGEL

BY WILLIAM PHILLIP SIMMS.  
Paris, April 10.—That the Bolsheviks have 600,000 troops concentrated in the Archangel region and are determined to capture that port, was believed expressed today by a French major, who just returned to Paris after being exiled in Russia since 1914.

(Unofficial advices received in Washington yesterday said the Bolsheviks in Northern Russia do not total more than 17,500, that the allies have twice as many men and that the Bolsheviks are poorly equipped.)

The Bolsheviks, according to the French officer, want the large stores in Archangel and the rate of the defenders is only of secondary importance to them. He considers the situation serious and insists that the allies must either reinforce their armies or withdraw immediately.

The troops on the Archangel front, the officer said, are hemmed in on one side by the Bolsheviks and on the other by a frozen sea. Emphasizing the allied predicament, the Bolsheviks have concentrated 50 to 60 per cent of their available troops in this region,

## NEARLY MILLION PERSONS ARE NOW IDLE IN BELGIUM

Paris, April 10.—Belgium must have complete reparation if her serious economic situation is to be improved and Belgian industry is to regain its feet, M. Vandervelde, Belgian Minister of Justice and Socialist leader, declared yesterday in an interview in the Temps.

Number of unemployed in Belgium is about 700,000, and the number of persons who have to be assisted by the Government is 230,000. In Brussels, where the normal number of workmen is 120,000, only 26,000 are employed.

Textile industry at Verviers generally employs 19,000, but only 700 are working. To add to the difficulties the cost of living is high and most industries are without money and raw materials with which to resume operation. In addition, the stocks stolen by the Germans have not been returned.

## RAINBOW DIVISION ON WAY TO BREST

Coblenz, April 10.—The Rainbow division bound for Brest on its way home, is expected to clear the army of occupation territory by Saturday, it was announced today.

The last contingent of the 149th field artillery left for the coast today. The troops trains are averaging about seventy hours for the trip to Brest. They are somewhat more crowded than was originally planned. In some instances there are fifty-four men to a car instead of the standard forty-five, but there is no grumbling.

"We would be willing to ride the bumpers if we had to," was the general verdict of the doughboys.

for the purpose of capturing the supplies at Archangel.

"I estimate the Bolshevik army at about a million," he said.

"They are fairly well organized on paper, but will not fight unless they feel like it. They are poor troops, for that reason, and do not persist when they meet a stiff resistance. In that fact lies the chief hope for the allies in the Archangel region. It is not true that Russia is largely pro-Bolshevik."

"I have talked with many peasants. They told me they voted for Bolshevik officers because they were given land, which they always wanted. Now they want order restored above anything else. They will welcome any authority guaranteeing them the right to retain their land and the opportunity to market their products peacefully. In the meantime, they necessarily support the Bolshevik because they have nothing else to turn to."

"Owing to the general feeling that they have been deserted by the rest of the world, I would not be surprised to see the Siberians join the Bolsheviks any day—not because they believe in Bolshevism, but because they have no alternative."

## MISS FRANCES CORY BECOMES THE BRIDE OF JOS. WAYNE FLATTER

Spring wild flowers freshly gathered from the woods, made a dainty setting for the nuptials of Miss Frances Cory, youngest daughter of County Commissioner and Mrs. R. E. Cory, to Joseph Wayne Flatter which was solemnized at noon Wednesday at the Cory home in Yellow Springs.

Baskets and vases filled with the fragrant bloom were placed about the rooms. Mrs. Mildred Cory Foster, sister of the bride played the wedding march from Lohengrin for the entrance of the bride party, who were unattended. The bride was lovely in a robe of white crepe de chine and georgette crepe beaded, and trimmed with fringe. She carried a shower bouquet of roses and sweet peas, and a pretty sentiment was attached to the dainty necklace of blue and white beads which she wore about her throat. The necklace was formed of part of the strand of beads which her great grandmother, Mrs. David Anderson wore at her marriage, and which she had requested each of her great granddaughters should wear on their wedding days. Her wish has been fulfilled and the necklace was divided in order that the desire of Mrs. Anderson, who has been dead many years, might be carried out.

The Rev. Daniel Brownlee D. D. of Dayton, formerly the bride's pastor at Clifton, officiated at the ring service, in which he was assisted by the Rev. W. T. McKinney pastor of the Clifton Presbyterian church.

Following the service, a two course luncheon was served. The bride's table at which there were twelve covers was an attractive picture. In its center was a flat rustic basket filled with the dainty white hepatica, growing in the sod in which they had been lifted from their bed in the wood. Bud vases at either end of the table held the same flowers. There were covers for Mr. and Mrs. Wayne Flatter, Rev. and Mrs. Brownlee; Rev. McKinney, Miss Dorothy Collins; Mrs. Orville Armstrong, Mrs. Mary Flatter, Miss Ruth Flatter, Miss Anna McCurdy, Mr. Cory, Miss Esther Cory.

Mr. and Mrs. Flatter went to their new home on the Springfield Pike north of Clifton later in the afternoon. Mrs. Flatter wearing away a brown tailored suit.

Mrs. Flatter is the youngest daughter of Mr. and Mrs. R. E. Cory, and a very charming and attractive girl. Mr. Flatter is the son of Mrs. Mary Flatter of the Springfield Pike.

## DAYTON PARADE OF SOLDIERS TO BE HELD SATURDAY

Definite announcement that the 148th Infantry, formerly the Third Ohio, will parade in Dayton Saturday, has been made and also that the outfit will reach Dayton Friday afternoon and spend the night there.

This information has just been given out by the authorities in charge of the home-coming celebration for the soldier boys. The outfit is scheduled to arrive in Columbus Thursday night, and the entire outfit of 43 officers and 1,153 men in charge of Lieutenant Colonel J. D. Atwood will parade there Friday morning.

The soldier laddies will have Friday afternoon and night pretty much to themselves and will be permitted to visit relatives or do what they please. In the evening there will be a dance for them at the Army and Navy Club in Dayton.

The parade is to start somewhere near the Union Station at 10:45 o'clock sharp. Local relatives of boys with the outfit can obtain reserved seats in the reviewing stand by giving their names in to either City Manager Riddle or City Auditor Hayward. They will then be sent to the committee in charge at Dayton and owners of the reserve seat tickets can call for them there at the Dayton headquarters.

It is thought likely that Xenia will get a glimpse of the Regiment when it passes through this city Friday afternoon on the way to Dayton.

## WATER CO STANDS PAT ON PROPOSITION SUBMITTED TO CITY

A joint meeting of Xenia Water Company officials, city officials and representatives of the Xenia Business Men's Association held a meeting Wednesday evening at the city building for the purpose of further discussing the proposed purchase of the water company property by the city. The city interests made a proposition to the water company to buy all of the property with the exception of the two pumping stations and equipment which will be abandoned if the city takes the property. The Water Company officials refused to consider such a proposition, taking the position that the proposition made the city for the sale of the property was at a figure far under the valuation placed on the property by the State Utilities Commission and that if the city wanted the plant it would have to take all or nothing.

The officials also made it clear that the price of \$260,000 for the entire plant was the company's rock bottom price. At this price the company can take care of its \$160,000 bonded indebtedness and can pay about 50 cents on the dollar on its \$200,000 stock issue.

## PRESIDENT WILSON IS SUCCESSFUL IN GETTING "BIG FOUR" TO SPEED UP

The situation in Paris has changed almost over night from one of greatest gloom to the greatest optimism.

Four important questions—reparation, responsibility for the war; Fiume and Saar Valley apparently have been disposed of. As reflected by representatives of three chief powers, the situation today was as follows:

United States—The sudden haste on the part of the big four, has made possible signing of peace by the last of April or the first of May.

Great Britain—Lloyd George, while bearing in mind his election campaign pledges, is disposed toward effecting a compromise whenever necessary to maintain the present rapid pace, and is determined to maintain permanent friendly relations with America above anything else.

France—France has reduced its claims to the minimum consistent with Wilson's 14 points and will now "stick by her guns."

Washington, April 10.—"Hammering ahead" along the path he has definitely selected, President Wilson has made "fine progress" in his peace conference during the last twenty-four hours, according to a private message received here today.

It was indicated here that understandings were reached yesterday on some of the most perplexing problems before the "Big Four."

Once more nearing the full vigor of his normal strength and able to remain in constant personal contact with Lloyd George, Clemenceau and Orlando, the president is expected by his advisers here to swing the "Big Four" back into the path of the fourteen points and gain his end.

BY FRED S. FERGUSON.

Paris, April 10.—Although an agreement has been reached on reparation and responsibility for the war, the peace conference is not yet out of the woods regarding the secret treaties entered into by the allies before American intervention, it was learned from an authoritative source today.

Reference to the conference being "agreed on the principal points with only the details to be settled" means in one sense that a show down on the London pact is yet to come. The suggestion from high quarters that the delegates again "look over the fourteen points," is also accepted as a reminder that President Wilson is standing just as firmly on the principles laid down in the armistice terms as at the start of the conference. These terms recognized no secret treaties.

When Greece's claims were being discussed by the British, French and Italian representatives, this committee held it was not competent to discuss certain points, centering on Smyrna as their governments were bound by the London pact regarding these questions.

This situation came up, it was learned, just as the president returned to work, after his recent illness, but it has not yet been brought to the attention of the "Big Four."

The Adriatic question also has lain dormant. There has been continued efforts to arrange a possible agreement through individual conferences but it is understood Italy is standing by the London pact in this matter also. The situation, briefly is that while all the allies endorse certain principles, it is a different story when these principles are applied individually.

Observers seeking to interpret the "Big Four's" decision that the former Kaiser "should be brought under allied control," professed to see in this trial by a special international tribunal, and possibly harsh punishment from Europe. The only definite thing regarding Wilhelm, however, appeared to be that he is not in danger of capital punishment.

In regard to reparation, the decision that Germany must pay an initial installment of \$5,000,000,000 within two years, with an undetermined balance to be fixed by a permanent financial commission, was regarded

ed as a compromise that would satisfy all the associated powers.

The league of nations commission will meet tonight to receive the redraft of the covenant. It will also hear a delegation of women who wish to present certain recommendations that can be discussed when the constitution comes up for open debate.

## CASE OF MRS. MARY SNORBUS GOES TO PROBATE COURT JURY

Whether Mrs. Mary Snorbus, white, of Yellow Springs, is guilty of the charge of receiving stolen property is up to a jury which is hearing her case which is on trial before Judge J. C. Marshall in probate court today.

Three Yellow Springs high school boys, Clifford McCune, 17, Harry Shingledecker and Clarence Schauer, 16, who are said to have sold stolen chickens to Mrs. Snorbus, the night of February 18, furnished the testimony upon which the cases against the woman chiefly hinges.

The case developed shortly after the theft of a dozen fowls from George McCullough was discovered. The three lads were suspected and they are said to have confessed the whole matter to Mayor Donnelly of Yellow Springs, and later to Judge J. C. Marshall. They admitted stealing the chickens and selling them to Mrs. Snorbus between 10 and 11 o'clock at night. They also admitted selling chickens to her at other times. On the witness stand the boys said that nothing had passed between themselves and Mrs. Snorbus as to how they had come into possession of the chickens, but that McCune asked her to say nothing about who sold her the chickens, and she had answered that "she would not." The boys involved belong to good families in Yellow Springs.

The case was prosecuted by Prosecutor Smith, and Marcus Shoup appeared as counsel for Mrs. Snorbus.

## G. W. WHITMER AUTO BADLY DAMAGED IN A COLLISION

Attorney C. W. Whitmer's touring car was seriously damaged, when a Ford machine which was being driven at a speed of about 40 miles an hour, collided with the larger machine at Main and Monroe streets, Wednesday. Mr. Whitmer drove his car slowly out of Monroe street, but the driver of the Ford, which was traveling east on Main did not slacken the speed of his car, or make an effort to avoid the other force into the rear of the Whitmer machine, damaging the bed, tender and running board. An axle of the Ford car was bent so that it could not be driven further. The owner of the Ford car is from Cedarville, but Mr. Whitmer did not learn his name.

"TREMENDOUS" does not describe it.  
 "NOTEWORTHY" does not nearly tell the story.  
 "OF GREAT MERIT," does not give full importance to the sale of Player-Pianos which opened here **Wednesday, April 9th**

In fact no word or phrase in the English language fittingly does justice to this carefully planned offer on player pianos, which can well go down in the history of the piano industry as the most unique, the most meritorious, the most far reaching in the eminent distinction of its merchandise of any sale ever held.

### EX-PRESIDENT TAFT IN- DULGES IN SARCASTIC CRITICISM.

By WILLIAM HOWARD TAFT

Newspapers and Paris correspondents have buried the league of nations again. Heretofore the burial has been complete and without hope of resurrection. This time a mock semblance is to survive in a formal covenant in the treaty, but it is to have no living force behind it, because the peace which it is normally to preserve is to be a patched-up compromise unsupported by the sincere approval of those who make it. France is to be left naked to her enemies in spite of the gratitude the rest of the Allies owe her. Poland is to be abandoned without Danzig as an outlet to the sea, while Jugo-Slavia is not to retain Fiume. Germany is to triumph in the terms of the treaty and retain power to defeat the purpose of the war. Germany is to combine with Bolshevism, and the league of nations will be helpless to maintain justice and stability in the new states to be carved out of the old empires. One correspondent sounds the alarm that American capitalists are seeking to have terms made with the Bolsheviks in Russia so that they can exploit that country. These reports and criticisms sound as if they have the day-of-judgment tone of a military critic who is in the flattering confidence of some military headquarters. They do not deal with the real difficulties of the situation. They imply such motives and ignorance in the leading negotiators as to impair much the persuasive force of their conclusions.

Meantime the league will stay dead until the treaty is agreed upon. For we may be reasonably sure that until we have a treaty we'll not have a covenant. We optimists will continue to hope that when the treaty becomes a living thing it will impart life to the covenant. But we should be prepared for renewed internments of the league, which, dead or alive, with its ideals, according to these critics, somehow wickedly delays the treaty.

### BAB PLANS A SOCIAL CAREER FOR HERSELF AND HER BOY

#### CHAPTER LVIII.

When Neil returned after taking Lorraine home, I thought I would ask him where he had been, and who he had been with. But he scarcely had taken off his coat before he said:

"I can see by your face that you want to talk. Bab, but I am in no mood for conversation. I had a very unpleasant evening, and if you don't mind I will go immediately to bed."

My wits went wool gathering. I forgot everything I wanted to say and meekly returned:

"Very well, I won't talk if you don't want me to."

"I certainly don't—not to-night."

He had said he had spent an unpleasant evening. I was positive he had not been with Blanche Orton because of what Lorraine had said. If he were really tired and worried I did not want to add to his anxieties in any way. I had read often, in stories of married life, that when a man came home tired, the best, the only thing, a wife could do was to keep still.

It takes a woman a long time to "get onto" all the little kinks in her husband's nature. I had not yet become accustomed to all of them in Neil's. But one thing I had soon learned: If he were either tired or sleepy, it was of no use to try to talk to him. I might talk, surely; but he paid not the slightest attention, and would often leave me in the middle of a sentence.

I wondered what the business could have been, that it should have given him a disagreeable evening. That it was anything but business, I never dreamed because I thought I knew he had not been with Blanche Orton. Just why I should have believed her the only woman who might interest Neil, I could not have explained, but the fact remained. Aside from Blanche Orton, I had never felt the slightest twinge of jealousy of any

other woman, altho Neil was a great favorite with them, and was always joking and "carrying on" as mother would say. But there was a something about him, about his manner, when with Mrs. Orton, that was entirely different than when with others. At least it seemed so to me.

So above and beyond everything else I had the feeling that if I could keep Neil and Blanche Orton apart I would have no cause for anxiety.

As I have said, I had begun to plan a social career. At first it was with baby Robert's future in view. But I soon wanted it for myself. I would show them that I did not only have money, but that I had position. I urged Neil to buy a house on a fashionable street a little east of the Avenue, and hire expensive decorators to do it over. Then, when it was ready, I indulged in a perfect riot of spending, assisted by Lorraine Morton, who had exquisite taste.

Nothing was too good for me. Indeed, it was a task to find things which were good enough. Lorraine, who was one of the elect, socially, had assured me that she would sponsor me in such a way that I would soon have a select circle of friends.

I was delighted that we were able to gratify my expensive habits. How little I realized that money does not really get people anything! I could not have believed then, so wrapped up was I in worldly things, what I firmly believe now: that more married people are separated by wealth, especially if it be quickly acquired, than by the direst poverty. As long as there is necessity for struggle, husbands and wives bear that struggle together. Their lives are so entwined by necessity, that they never get far from each other in thought or in action. Everything that affects one also affects the other. It is a matter of mutual concern how every dollar is spent.

But with a plethora of money their interests are apt to diverge. Each makes new friends, who, while not perhaps intending to help to lead them farther afield in their lives together. Before they realize it he is going his way, she hers. They have no little problems to talk over; they neither earn, save, or spend together. They forget to consult each other over the things they do, the money they spend; it isn't necessary. So it had been with us in all the

small things of life, and it was fast becoming so with the big things. For, while I planned my campaign I was so interested that I almost failed to notice when Neil remained out, or what time he came in.

### Public Sales

Have your sale announced FREE in this column early, so that you may claim your date and others will stay off of it. These ads are run every day and are gratis with the large display advertising. We also furnish sale bills without charge. Let us tell you about it.

PUBLIC SALE advertising in the Gazette and Republican bring the crowds. In these days of automobiles the farmer has no time to stop along the road to read sale bills. He is coming to depend upon the papers to notify him of the sale dates and articles to be offered for sale. It's the buyer from a distance who sees your ad. in this paper, who jumps in to his auto and hustles to your sale, who pays what your stuff is worth. Your neighbor no longer can stand around and pick off what he needs at an absurd price, as he does when you have not properly advertised, and gotten a good crowd. Use the Gazette and Republican if you want the worth of everything you offer. Don't try to save on your advertising.

## LUMBER DEALER PAYS TRIBUTE TO NERV-WORTH

Hopes That Other Sufferers Will Profit By His Happy Experience.

The desire to pass good news along has moved a multitude of grateful Nerv-Worth users not merely to utter praise in writing but to consent to publication. Note what this well-known lumber dealer "cheerfully" tells Springfield's Nerv-Worth druggist in a spirit of helpfulness:

The Troupe Drug Co.—For three years I have suffered from stomach and digestive troubles. Constipation—and bowels in bad shape. Had kidney and bladder trouble. Could not get anything to correct these ailments. I purchased two bottles of Nerv-Worth from you and took them as directed and can now say that the complaints mentioned have left me and I am feeling fine and in my normal and vigorous condition. I most cheerfully make this statement, hoping that others afflicted as I was may get permanent relief.

## INTERESTING SESSION MARKS OPENING OF MISSIONARY CONVENTION IN XENIA

The Presbyterian church served supper to 117 at the Young People's Banquet which is the first session of the forty-second annual Woman's Missionary Convention of Dayton Presbytery, Wednesday evening at 6:30. The tables were tastefully arranged and creamed chicken, mashed potatoes, peas, combination salad, hot rolls and ice cream and coffee were served. The guests and delegates remained around the tables during the program of the evening.

Miss Gertrude L. Stephan of Hamilton, presided and introduced the speakers of the evening who gave gleanings from the field. Ralph Gillespie, of Collinsville, spoke on the "Possibilities of Christian Endeavor." He said the Sunday school is the training school of impression and the C. E. the school of expression. He emphasized the value of holding the young people in the church and giving them an active work to do for Christ and the church.

Miss Margaret Russidicker of Dayton, told the possibilities of Junior Christian Endeavor work. First, the importance of early impressions, and second, awaking talents in the child early so that they may be cultivated and bring forth fruit.

Mrs. E. F. Babb of Springfield, represented the Light Bearers which is an organization for children from 6 to 14 years of age. Mrs. Babb takes an active part in this labor and told of the work her branch of children had accomplished in the last year.

Miss Elizabeth Ricks of Springfield, and Miss Sylvia Balthaser of Greenville, told of the work of the Westminster Guilds which was certainly worthwhile. This branch is an organization of young women who study missions and do various other philanthropic work. The young women of Greenville sewed at their meetings and sent 20 dozen towels, two dozen pillow slips and sheets to Haines Hospital in Alaska, besides Red Cross knitting.

Rev. Charles M. Brown, of Hamilton, delivered the address of the evening, his theme being "A Budget of opportunities for Young People."

Rev. Brown was for sometime engaged in war work and is a forceful speaker. He said, "Young people get a big idea, a big vision, a big spirit of love and a big spirit of sacrifice and great things can be accomplished. Live the things you actually believe seven days a week."

His talk was very encouraging to the young and his message went home to everyone.

Miss Stephan called the roll and ninety delegates responded, representing 33 branches of young peoples organizations in the Presbyterian church. Penents were awarded to

Collinsville C. E.; Junior Banner went to Hamilton again; Circle Banner to Springfield, Oakland; the Chapter Banner to Springfield, Second Church and the Light Bearers to Greenville.

Standard of excellence for the Presbyterian Society is first, an increase in membership; second, Home and Foreign Mission Study classes; third, increase in gifts; fourth, all apportionments or pledges paid in full in prompt monthly or quarterly payments; fifth, one dollar to each of the Emergency funds of Woman's Home and Foreign Boards, and a gift to the Presbyterian Contingent Funds; sixth, a responsibility for the organization of at least one society for young people or children; seventh, at least one Praise or Thank Offering service; eighth, an average attendance at regular meetings equal to at least two-thirds of the contributing membership; ninth, the year book of prayer in the hands of at least two-thirds of the active members; and tenth, subscription to Home Mission Monthly equal to at least one-half the contributing membership.

The Xenia Westminster Guild entertained all guests who were here at a 4 o'clock tea. Mrs. J. R. Patterson, Miss Louise Shaffer, Miss Florence Swan, Miss Francis Bigger and Miss Helen Jobe poured the tea and made it very pleasant for all who were there.

## DECIDES TO BE A LIVE ONE

Young Man Comes Back

One of our young men sure has come to the front in short order and his friends are at a loss to understand his untiring energy and ability to work and get results, where only a few weeks before he seemed to be all run down and almost a nervous wreck.

Questioned by a curious friend as to the cause of the sudden change, he said: "I sure was in bad shape and no one knew it better than I did. It had my goat for fair. I was all in and my nerves shot to pieces with worry and sleepless nights. One day I overheard a customer telling what Phosphated Iron had done for him and I could not get a supply quick enough."

"That's the whole story, just Phosphated Iron. My poor tired overworked nerves just seemed to be Phosphated, the way they took hold of it, and say what a relief. I felt like a new man. Could sleep at night, and get up in the morning feeling like a two-year-old. Believe me, I had some appetite too, my weight increased rapidly, my face filled out and had the color of perfect health that only goes with pure blood, well fed with Iron."

"You can bet I am strong for Phosphated Iron. Everyone who tries it is a booster."

"Do you know even the doctors are prescribing it; trust them to get next to a good thing."

Special Notice: To insure doctors and their patients getting the Genuine Phosphated Iron we have put in capsules only, so do not allow dealers to sell you pills or tablets.

## Diamond SQUEEGEE TREAD

### Tires Mark those 3 Continuous Bars on the Tread

How quickly a railroad coach would pound to pieces if it had to jump three inches from one rail to the next. Skips or gaps in the rolling surface of tires are equally disastrous.

Those three continuous ribs on the Diamond Squeegie Tread give as smooth a rolling surface as though it was a smooth tread tire. "More - Mileage Ribs" we call them, for they put more rubber right where the wear comes.

Yet that scientifically designed Diamond Squeegie Tread halts forward and slide skids. It adds mileage—you'll run a Diamond thousands of miles before you wear down those Squeegie Ribs. Cut your tire upkeep with a Diamond.

## Indigestion, Gas and Bloat From Acid-Stomach

An acid-stomach cannot digest food properly. Instead, the food sours and ferments, and, passing into the intestines, becomes a breeding place for countless millions of deadly germs—toxic poisons they are called. These poisons are absorbed into the system and cause untold misery. So, you see, it is just acid-stomach, nothing else—that makes so many people weak, listless and unfit; saps their strength and energy; robs them of their vigor and vitality. Biliousness, bad liver, nervousness, bleeding, splitting head aches, rheumatism, lumbago, sciatica—these and many other still more serious ailments often are traced to the common source—an acid-stomach.

Take EATONIC and get rid quickly of the pains of indigestion, heartburn, that horrible, lumpy, bloated feeling after eating; disgusting, belching, food-repeating; sour, gassy stomach. These stomach miseries are caused by what doctors call "Hyperacidity." It's just ACID-STOMACH. And in addition to the pains and miseries it causes, ACID-STOMACH is the starter of a long train of ailments that most people never dreamed are in any

way connected with stomach. Pleasant tasting EATONIC TABLETS that you eat like a bit of candy, quickly put an end to your stomach troubles. They act as an absorbent—literally wipe up the excess hurtful acid and make the stomach pure, sweet and strong. Help digestion so that you get all the power and energy from your food. You cannot be well without it!

If you are one of those who have "tried everything" but in spite of it still suffer all kinds of acid-stomach miseries—if you lack physical and mental strength and vigor—begin at once to take EATONIC. ## THE ALSATIAN BOW AND SMALL HELMET ARE WAR INSPIRED MILLINERY MODES

At first glance there seems to be no trace of war influence in these altogether charming hats, but on closer inspection one can detect the helmet shape of the rough straw even though it is camouflaged with black lace flange and a perky bow at the back. The large sailor hat of maline with huge polka dots embroidered in straw is trimmed with a large straight bow which was inspired by the bows worn by the Alsatian maids in north- ern France

## AMERICANS UPSET SACRED TRADITIONS IN FAR AWAY FRANCE

Americans in France have upset many sacred traditions. They have waded in with true Yankee aplomb and done things in their own way, without pausing to see how the Frenchmen were shocked.

It remained for Miss Nan Cannon, former Columbus girl, now doing Y work in Paris, to destroy the morale of a fashionable French restaurant, all because she didn't know how to eat an artichoke.

This is the way she tells it: "I had always wanted to eat an artichoke. Perhaps if I had ever seen one I would not have been so eager. But all I knew about them was that stylish people talked about them and ate them in all the modern novels. It

cost 2 francs, and, though I did not really eat it, it was quite worth the money.

"I was with a Y man from Kansas who had no more seen an artichoke than I. The garcon brought it in on two plates—a huge green thing shaped like a pineapple. While I was sitting there, appalled at its size and wondering just which would be the point of vantage to attack it, the Y man gallantly suggested that he would help me cut it. So with knife and fork he waded in, while the whole table of French folk stopped eating and looked upon the crime aghast.

Nothing was said, however, until I put on the finishing touches to the horror by taking some of it on one plate and sprinkling it with salt and vinegar. Instantly the whole table was in an uproar. Everybody laid down knife and fork and began chattering at once. One man waved his hands frantically in front of me in a sort of danger signal and shouted, "Pas bon," which I took to mean that the portion was not fit to eat. So I summoned the garcon and bade him, in broken French, to take the bad one away and bring me a good one.

"At this juncture the waiter, indignantly expostulating and every body talking at once and my poor Y man overwhelmed, a man across the way leaned over and in careful English explained that the artichoke was good enough but that I was not eating it right.

"I shall arrange it for you," he said. And he went to work, talking as he first prepared the dressing of olive oil, vinegar, salt, pepper and mustard. Next he explained that you pick off, leaf at a time dip it in the dressing and suck off the tender or edible portion. He meanwhile was going through the motions, with the whole table nodding approbation. But I would have eaten that plant if it had poisoned me, instantly, for the table had stopped eating and was watching the whole performance, with occasional suggestions in French to the chief performer.

"But the climax of the faux pass came when three of the diners near me ordered artichokes (although they were comparatively dear and not usually taken), and, after they were served, one and all looked at me and said, "Regardez," and then they proceeded to show me how to eat an artichoke!

"The rest of the table looked on in content and admiration at this charming bit of French courtesy so sincerely, simply and genuinely displayed."

## LUNGS GREW WORSE IN STATE HOSPITAL

Mr. Randall promptly got well at home. Passes strict examination.

"Three years ago I was afflicted with tuberculosis of the lungs. I was finally sent to the State Tuberculosis Hospital at Rockville, Ind., where I remained three months, getting worse all the time, and I persuaded the doctors to let me go home. I was then reduced to 122 pounds, had fever all the time, and was very weak.

"As soon as I got home, I started taking Milks Emulsion. I commenced to improve at once. In a few months, I was back to 180 pounds and had completely regained my health. Since then I have been employed by Valentine & Co., meat packers, and am able to pass the strict medical examination necessary in this line of work, showing I am in perfect health."—Sam Randall, 521 So. 17th St., Terre Haute, Ind.

## How You May Reduce Your Weight

Overstoutness is a very "unwelcome" condition, especially in the present day, when slender figures are so popular, and every reader of this paper who has noticed a tendency to put on weight will be glad to know of a new, simple home treatment that is remarkably efficient and inexpensive.

## TEN MILION DOLLARS MAY BE NEEDED FOR ROOSEVELT MEMORIALS

New York, April 10.—The three memorials to Colonel Roosevelt—a monument at Washington, a seaside park at Oyster Bay and "the establishment and endowment of a Roosevelt Society for the development and application of the policies and ideals of Theodore Roosevelt"—may demand a fund as large as \$10,000,000, according to a statement made today by a prominent member of the Roosevelt Permanent Memorial National Committee.

Colonel William Boyce Thompson, chairman of the committee, refused to deny or to confirm the statement. "It is too early in the game to say how great a fund we shall go out for," he said in answer to inquiries. "But I can see the money coming in in sums that will astonish even those who most ardently admired the Colonel. There is a deep sentiment for the Colonel all over the country, and it is not fading any as the weeks pass. If anything, it is growing. The American people are beginning more and more to realize what a great man Theodore Roosevelt was, frank, open, clean, right through, ready to fight at the drop of the hat for a good cause. Americans appreciate that kind of man. They know that the country has been built up by men who stood for the things that Roosevelt stood for; they know that if the country is going to endure, it will be by the perpetuation of the Roosevelt spirit, and only by the perpetuation of that spirit. That is the reason the third memorial chosen is so important. I refer to the establishment of a Roosevelt society to develop and apply Roosevelt's policies and ideals. That third memorial was chosen because the American people had shown unmistakably that they wanted exactly such a living memorial created. They wanted something done to carry on the work of Theodore Roosevelt, and I believe they will pour out their dollars gladly to swell a fund with that for its aim."

Members of the Memorial Committee who attended the recent meeting from all over the country, were of one mind in declaring that "folks everywhere were just waiting for a chance" to contribute to the fund.

As a consequence of a resolution passed at the meeting of the committee, a Roosevelt Memorial Association will shortly be formed. Colonel William Boyce Thompson, chairman of the committee, will probably become president of the Association, with Ex-President William H. Taft and Ex-Justice Charles E. Hughes as honorary presidents.

The Association will carry on its work at the present offices of the Memorial Committee, No. 1 Madison Avenue, New York.

## MAN INJURED AND HORSE IS KILLED WHEN AUTO HITS IT

(Washington Herald.)

Carey McGonigle, residing north on the Prairie pike, two miles north of this city, was badly injured, his horse injured so that it was necessary to kill it, and a buggy torn to pieces, about 11 o'clock Sunday night, when struck by an automobile driven by Arthur Rothrock, who, it seems, was in the act of going around another machine, and did not see the buggy in time to keep from striking it.

McGonigle's left leg was fractured below the knee and he was injured about the head, besides sustaining painful bruises about the body.

The Rothrock car, which was going rapidly at the time, was thrown into the curb, and climbed the curb, finally landing in a vacant lot on its side. The driver escaped injury. The McGonigle buggy, it is claimed, bore no light.

McGonigle was brought up town to a physician's office and his injuries given attention.

A good wholesome breakfast ready quick, Mrs. Austin's Buckwheat. Three pounds—twenty-five cents.

Grandmother's Old-Fashioned Sulphur and Molasses Did It. But Not So Well! As This Sulphur Tablet—Sugar Coated.

Through the winter the blood accumulates poisons because you do not perspire enough, because you do not live in the open air, and because you eat more meat, mush and other rich foods. Every spring thousands who already know their value take them to purify the system of Winter Poisons. Now is the time to begin, so you won't be attacked by serious ailments when Spring and Summer come. Sold by all druggists 60c per sealed tube with full directions.

## Petroleum in Biblical Times.

Natural petroleum has been used certainly since the time of Cyrus. It was known in ancient Biblical history, where it is described as "the salt of the earth." When such salt loses its savor it is only fit to be trodden under the foot of man, because on losing its volatile essence it becomes asphalt, which was used for pavements both in Nineveh and Babylon.

## MIAMI CO. AUTO OWNERS FIGHT BILL

President C. E. Williams of the Miami County Auto club received the following letter from Representative L. A. Pearson of Columbus, relative to the message sent from here on the House Bill 202, limiting motor speed to 10 and 15 miles per hour:

"Have your message of the second instant and note that your auto club with a membership of 500 is opposed to House Bill 202 by Cash of Stark county. There is a great deal of opposition to this bill and I hope, as you, that it will not become a law."

This letter is very encouraging, and with the Miami county member of the House active against the bill, and backed by the Miami Auto club, with the assistance of other representatives, who in turn are backed by every auto club in the state as well as the state associations themselves, the outlook for the proposed law is far from bright.

## La-may Face Powder

### Does Not Contain Any Rice Powder

Now you can use a pure face powder that is guaranteed not to injure the most delicate baby skin. It will not cause enlarged pores, blackheads and irritations. And, it really stays on better than any other face powder. It does not contain white lead or starch. It is pure. (Poudre de Riz) to make it stick. White lead poisons the skin and rice powder turns into a gluey paste that encourages enlarged pores, blackheads and rice powder pimples. The specialist who makes this improved powder uses a medicinal ingredient that doctors use to heal the skin. In fact, this new powder helps to prevent and reduce enlarged pores and pimples. It is also astringent, discouraging flabbiness, crow's feet and wrinkles. Because it is pure and because it stays on so well this is also pure.

La-may powder (French, Poudre L'Ame) is now used by over a million American women. The large size is only fifty cents and the trial size is twenty-five cents. Remember, La-may is guaranteed absolutely pure. Five thousand dollars reward is offered any chemist who finds it contains any white lead or rice powder. Refuse substitutes. Your common sense will tell you that when you are offered a substitute it is sure to be a demonstrator trying to sell an inferior powder that pays a big commission. When you use this absolutely pure La-may and see how splendidly it beautifies your complexion, you will understand why it so quickly became the most popular beauty powder sold in New York. Save this notice, La-may powder is also pure.
